

3DVU Enhancing Over 80 Million Nokia Phones with Navi2Go, the Only 3D Virtual World Mobile Navigation

3DVU Release New Navi2Go for Nokia Phones, the Only Mobile Navigation with 3D Aerial Photography and Terrain Landscape

With this announcement, 3DVU is enabling over 80 million Symbian S60 3rd Edition mobile phone users to enjoy Navi2Go, the ultimate mobile 3D picture and terrain navigation for the same cost as standard line-based maps.

- Enhancing over 50 phone models (43 Nokia, 6 Samsung and 2 LG)* and over 80 million users
- 3D photography mobile navigation – the most intuitive way to travel
- Full high-resolution aerial photography and high-definition terrain landscape of entire Countries (USA, UK, Germany and Netherlands)
- Multilanguage voice and text guidance (English, Dutch and German)
- Multiple route preferences for Vehicle and Pedestrian navigation
- 3D waypoints to never miss an exit
- Search Points of Interests by radius or along the route with navigation features taking you through the location as a stopover along the route
- Flyover the entire country (like Google Earth but on your mobile)

Tel Aviv Israel – September 17, 2008 – 3DVU the premier worldwide provider of 3D Photography Navigation announce release of multi-language Navi2Go for Symbian S60 3rd Edition Smartphones. Navi2Go is the only offboard 3D image navigation solution in the world and is the most intuitive and efficient navigation. Navi2Go is a cross platform mobile navigation solution available on hundreds of Windows Mobile, Blackberry and Symbian mobile phones. Navi2Go is offered at same low cost of standard line-based map solutions, bringing rich media to the masses. Navi2Go US, Navi2Go UK, Navi2Go Germany, and Navi2Go Netherlands for Symbian devices are being sold by leading Mobile Operators and shops such as Handmark, MobiHand, PocketGear, Mobile2Day, Pocketland, Handango and more.

Navi2Go is a patented mobile application, providing 3D photography for the most intuitive navigation experience on mobile handsets. Users can travel the entire USA, UK, Germany and Netherlands at high resolution aerial photography with full 3D landscape. Navi2Go is making it easier for consumers to navigate giving instant orientation that prevents them from getting lost. Accurate multi-language voice guidance and 3D route guidance over 3D virtual world makes Navi2Go the most intuitive, friendly and easy to use navigation solution. Navi2Go includes newly released features including navigation preferences that let users select the Fastest Way, Easiest Way, Pedestrian mode as well as an advanced Search menu that helps you locate and navigate to Restaurants, Parks, Banks and more.

“3DVU continue to expand its offering to more mobile users on more popular phones. For the first time, tens of millions of Symbian mobile users will benefit from navigation of entire country with full 3D high-resolution photography and high-definition terrain.” noted Isaac Levanon 3DVU’s Chairman and CEO. “Where all others are offering navigation with 80’s like graphics, Navi2Go is game changing, presenting the real world virtually to the mobile handset at the same price” added Levanon.

3DVU will expand distribution covering all of France, Italy, Austria, Czech Republic, Denmark and the rest of Western Europe in high resolution aerial imagery and high definition terrain elevation. Navi2Go will soon release its product with an added navigation mode providing 3D line-based

map with 3D terrain elevation for users who want the choice to navigate between a map and picture. 3DVU will commercially release Navi2Go for iPhone, Linux and JAVA devices shortly.

About 3DVU

3DVU is the world's leading provider of 3D Image Navigation and Location Services. Satellite and aerial imagery, as well as mapping data, such as route information can now be streamed over limited-bandwidth communications with realistic 3D views and smooth maneuverability. The company is strategically partnered with carmakers, navigation systems, mobile device and handset developers, major satellite and aerial image-sensing entities, mapping and GIS data providers. 3DVU is the winner of Frost & Sullivan's Europe Telematics and Infotainment Technology of the Year Award in 2007. The company has multiple software patents. For more information, visit www.3dву.com.
